DETAILED ACTION

1. This action is responsive to communications: IDS filed on 9/2/03.
2. Claims 1 – 37 are pending in the case. Claims 1, 19, 20, and 33 – 35 are independent.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 19, drawn to Format Transformation, classified in class 715, subclass 523.
 - II. Claims 20 – 34, drawn to Pattern Matching, classified in class 707, subclass 6.
 - III. Claims 35 – 37, drawn to File Allocation, classified in class 707, subclass 205.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as building an output record. See MPEP § 806.05(d).
3. Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as storing items in fields of a data packet. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and the search required for Group III is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
